INTRODUCING 'SALUD' - Offender Reentry Program

Attention Inmates and Families:

STSARS has a federally funded Offender Reentry Program named SALUD that is designed to help people like you. IT IS INTENDED ONLY FOR THOSE WHO HAVE BEEN ARRAIGNED AND SENTENCED AND WHO ARE INCARCERATED and scheduled to be released within three months.

WHILE INCARCERATED, the inmate will need to be assessed by SALUD Project Staff. The program provides services to the inmate and the family to help ease the transition.

We will provide Suboxone/ Methadone Medication Treatment (for those who qualify), Outpatient Treatment, Case Management, Job Assistance, Family Counseling, Wellness Support, Recovery Support Services, Transportation, Bus Passes, and many other services.

If you are an inmate or a family member/ friend, please contact Santos Torres, Project Director at Project SALUD for more information.

Again this is NOT for those pre-trial. We are here to help you rebuild your life and to smoothly reenter back into the family and the community.

There is no charge for those who qualify.

Contact: Santos Torres, SALUD Project Director (361) 882-9979,
STSARS RTA Location: 602 N. Staples St., Ste 250, Corpus Christi, Texas 78401
